¹ Current month prices are mid-month; prices for previous months and years are for the entire month. Agricultural Prices are published at the end of each month throughout the year for the United States and selected states. Maryland is not in the monthly prices program; however, price information is available for Maryland commodities at the end of each production year. Throughout the year on Friday, the Maryland Field Office of USDA's National Agricultural Statistics Service in cooperation with the Maryland Department of Agriculture publishes the Maryland Grain and Hay report.

² Parity prices are computed under the provisions of Title III, Subtitle a, Section 301 (a) of the Agricultural Adjustment Act of 1938 as amended by the Agricultural Acts of 1948, 1949, and 1956.
